

PHILLIP DA SILVA-MARQUIS

Fort Lauderdale, FL | marquisphill@yahoo.com

PROFESSIONAL SUMMARY

Business Analyst / Product Owner with 10+ years building and governing the platforms companies rely on as their source of truth — order management systems, product catalogs, and enterprise data platforms. I turn business needs into requirements, backlogs, and delivered systems, partnering with product owners, technology leadership, and business stakeholders from discovery through go-live and stabilization.

Career Highlights

- **Led** a 1,000+ report legacy system consolidation down to 20 audit ready data models, standardizing how CITY's OMS data was structured and governed. Ran stakeholder triage down to a vetted shortlist, then built an AI assisted, QA scored pipeline to close the gap. (2026)
- Built a Claude driven BRD synthesis process that turned lengthy business requirements documents into executive ready summaries, with line level traceability back to source. Leadership could verify without reading hundreds of pages. (2026)
- Founded a cross departmental AI adoption program, from intake through a rotating use case showcase. Turned scattered employee AI experimentation into a shared, visible practice. (2026)

CORE COMPETENCIES

Product Strategy & Roadmap Ownership | Business Analysis & Requirements Gathering | Backlog Management & Prioritization | Stakeholder & Cross-Functional Engagement | Data Governance & Standardization | System Integrations & API/Data Mapping | Agile/Scrum Delivery | AI-Assisted Delivery
Tools: Jira, Confluence, Visio, Azure DevOps (self directed), SQL | NetSuite, Salesforce Commerce Cloud, Syndigo Riversand PIM, Oracle Responsys

PROFESSIONAL EXPERIENCE

CITY Home | Tamarac, FL

October 2025 - July 2026

Sr. Business Analyst, Enterprise OMS Modernization

Delivery Leadership & Stakeholder Alignment

- Coordinated workstreams across CITY's IBM Sterling OMS modernization — the system of record for order data — spanning report rationalization, data migration, CRM, and customer notifications. Tracked **risk and dependencies** program wide.
- Served as the **conduit** between CITY's legacy system engineers and IBM's implementation team. Sequenced three discovery sessions into a documented, owner assigned project plan that replaced circular discovery with actual execution.

Requirements & Documentation

- Wrote a 65 page BRD defining CRM UI and functional **requirements** for the Sterling OMS rebuild, covering invoice search, claims workflow, and delivery routing. Also wrote hundreds of Jira **user stories** with **acceptance criteria**, and kept formal Jira to BRD **traceability** throughout.
- Facilitated week long, all day **requirements** workshops for each focus area, with sign-off by end of day. Built "Change Radar," a self created Jira fed tracker that let every BA see what other teams were about to deploy and where it could hit their systems.

Data Governance & Process Improvement

- Reworked the Jira board and intake **process** in my first two weeks to fix a requirements prioritization gap, and introduced a standard epic/user story structure that became the team's lasting standard.
- Led a 1,000+ legacy report consolidation via an **AI assisted, QA scored pipeline**, landing on 20 audit ready data models. Standardized naming, structure, and ownership, and mapped each model to current and future OMS data sources.

FlexShopper Inc. | Boca Raton, FL
Project Manager, Merchandising (Promoted)

2 years
March 2025 – August 2025

Platform Ownership & Delivery

- Owned the Logicbroker platform **end-to-end** as FlexShopper's system of record for orders and inventory, replacing the legacy OMS and catalog ETL process. Integrated the CRM, NetSuite, the website, and all **vendors** (EDI, API, portal) over an 18 month rollout.
- Managed FlexShopper's full merchandising **backlog** and portfolio, including vendor onboarding, financing partner onboarding, and catalog work. Owned priorities, dependencies, risk, and milestones across all of it at once.

Stakeholder & Program Leadership

- Caught a revenue clawback gap in the Catalog-as-a-Service MSA before signature. Diagrammed the issue for the Chief of Merchandising and drove the system fix that closed it.
- Presented platform roadmaps and performance updates directly to the CEO every month. Led **Agile** ceremonies across every dev team and mentored junior BAs through 1:1 coaching.

Business Systems Analyst / PMO Analyst

November 2023 – March 2025

Requirements & Integration Delivery

- Translated **requirements** from six departments into BRDs, FSDs, and 100+ **user stories**. Kept formal Jira to BRD **traceability** and a live tracker of open stakeholder questions.
- Owned the business side of the Logicbroker to NetSuite invoice integration. Evaluated a third party developer's proposals and pushed back using my own firsthand API knowledge.

Go-Live & Production Support

- Onboarded 35+ **vendors** by redesigning catalog, product, order, and invoice workflows. Cut onboarding time roughly 60% while managing expectations between the business and the **vendor**.
- Built a go-live checklist covering **UAT**, launch, and post-launch support. Served as first point of contact for integration issues, including root causing a mass API error incident and shipping a self service portal fix that kept it from happening again.

ADDITIONAL EXPERIENCE

Pet Supermarket Inc. | Sunrise, FL

2013 – 2023

Progressive roles: Junior Business Analyst (2021–2023) | Web Catalog Specialist (2018–2021) | Digital Marketing Specialist (2015–2018) | Ecommerce Specialist (2015) | Sales Associate (2013–2015)

- Owned the Syndigo Riversand PIM — the company's central source of truth for product data — as product owner, handling requirements, backlog, sprint planning, and testing across 200+ vendors and 14,000+ SKUs.
- Defined the SQL logic behind the PIM to SFCC integration, fixing pricing mismatches and inconsistent product content between channels.
- Created wireframes for the PDP, PLP, homepage, and other major pages during the company's site migration to BigCommerce.
- Rebuilt Oracle Responsys email marketing for a 1.5 million member list, lifting open rates 30%+ through segmentation and automated journeys.

EDUCATION & CERTIFICATIONS

B.A. in Communication & English, Florida Atlantic University | Professional Scrum Product Owner I (PSPO I) – Udemy, 2023
